

Section 179 Deductions

2009 Maximum Deduction is \$133,000

For 2009, Section 179 of the IRS Tax Code allows business to deduct the full purchase price of qualifying equipment purchased or financed during the tax year in which the purchased equipment was put into use. This means when you buy or LEASE equipment for your practice/business you can deduct the entire purchase price from your gross income up to the stated IRS limitations.

Affinity One Healthcare Finance Company

Affinity One is a full service equipment financing company that services the needs of healthcare professionals and part of our dedication to our clients is educating them on any benefits available to them, including Section 179 Deductions.

Get an Additional 20% Depreciation

Section 179 depreciation provision also allows a company to depreciate an additional 20% of the cost of an asset bought for 2009 (See example 2). Please consult your CPA to determine if your equipment qualifies for additional savings.

Get the Proper Lease

The nature of leasing allows for structures that have unique tax implications and can drastically affect the amount of Section 179 deductions for which you will or will not qualify. Affinity One will consult with you and help structure the financing for your next equipment purchase and work to create a lease that serves your needs and allows you to claim as much Section 179 benefit as possible.
